

## ArChine Arctherma TCS 260

### Description

ArChine Arctherma TCS 260 is a silicone oil grease. It contains many other additives, for example: antirust, oxygen resist.

ArChine Arctherma TCS 260 has many advantages, for example: no loss at high temperature condition, reduce noise, high drop point, chemical stability, outstanding lubrication properties, rust resistant, and so on.

### Application

ArChine Arctherma TCS 260 is designed of using of small electrical heater, computer radiator, electrical switch radiator, and so on.

Operation temperature: -40°C~260°C

### Technical Data

ArChine Arctherma TCS 260	
Appearance	White
Base oil	Synthesis silicone oil
Solid	Thermal conductivity powder
Worked penetration	235
Drop point, °C	No
