## SX-9936-46 PAG Synthetic Refrigeration Compressor Oil

SX-9936-46 is unique co-polymers of polyalkylene glycols (PAG). The synthetic base oil ensures good cold flow properties, a high chemical stability and low tendency to evaporation. Primary benefits include:

- Low maintenance costs due to extended oil change intervals and reduced oil consumption
- High efficiency of the refrigerating plants
- Low operating costs due to long service life of filters and oil separators

This high-performance lubricant is recommended for use in:

• Automotive Air Conditioning Applications

## **Typical Physical Properties\***

| Properties                          | SX-9936-46                   |
|-------------------------------------|------------------------------|
| Appearance                          | Colorless transparent liquid |
| Density@20°C, g/cm <sup>3</sup>     | 1.027                        |
| Viscosity@ 40°C, mm <sup>2</sup> /s | 48.4                         |
| Viscosity@100°C, mm²/s              | 10.28                        |
| Viscosity Index                     | 208                          |
| Flash Point(open cup), °C           | 220                          |
| Fire Point, °C                      | 238                          |
| Pour Point, °C                      | -51                          |
| Copper Strip Test, 100°C, 3hr       | 1                            |
| Foaming, 24°C                       | 20/0                         |
