

ArChine Molybdenum HP 2

DESCRIPTION:

ArChine Molybdenum HP 2 High-Performace grease is an extreme pressure and high-quality, lithium-based grease which contains MoS2 and an optimum long-term lubrication, combines with highly effective additives and reliable lubrication under extreme conditions.

Features:

- universal application
- cold- and hot-water resistant
- distinctive high-pressure characteristics for high load-carry capacity
- stable to ageing and milling
- reliable corrosion protection
- reduces friction and wear
- cost effective due to high operational safety
- extremely long lubricity
- can be delivered by centralized lubrication systems

Applications:

For general use under extreme conditions. For the assembly, maintenance and repair of motor vehicles, machine tools, construction machinery and presses. For high-load bearings and joints, splined shafts, threads and guides. Suitable for constant velocity joints.

Technical Data:

Colour	Dark grey
Based on	Mineral oil
Thickener	Lithium soap
MoS2 Content	2.0 wt %
