

## ArChine Rodron SGR

Drawing Oil for Stainless Steel Golf Rods

### Application

ArChine Rodron SGR is a kind of high performance tensile lubricating oil for stainless steel golf rods. ArChine Rodron SGR is mainly used for low speed high pressure cold forming process. It can be used for drawing process of hard metal such as stainless steel golf rods, stainless steel bar, all kinds of hard alloy bars, chrome molybdenum alloy bars, etc.

ArChine Rodron SGR has been specifically developed for cold forming process of hard metals. ArChine Rodron SGR can provide superior internal and exterior lubrication to traditional oils.

### Performance

ArChine Rodron SGR contains high levels of chlorinated and other extreme-pressure additives. These ensure long tool/die life, good component surface finish and trouble free operations.

### Property

Rodron SGR	Unit	Data
Appearance	-	Amber/brown liquid
Viscosity at 40°C	cSt	3000~5000
Flash point PMCC	°C	>200

\* All values are typical and there maybe batch variations.

### Common Packaging

Bucket: 25KG & 250KG

### Distributor Wanted

Shanghai PingYiao Trading CO., Ltd.

Adress: Xuhui District, Shanghai Caoxi Yinhai Building, A1207 Room, No. 250

Telephone helpline: (86)15900706965
