

**ArChine Alumcut N12****HIGH PERFORMANCE NEAT CUTTING OIL****Description**

ArChine Alumcut N12 is especially designed for machining aluminium alloys and aluminium. This product contains antioxidant and oil additive.

**Application**

ArChine Alumcut N12 is recommended for machining of aluminium alloys and aluminium.

ArChine Alumcut N12 is designed for general machining, grinding and broaching.

**Advantages**

Low oil mist and foam characteristics, even at high pressures and flow rates, leads to a reduction in oil consumption and increased production rates

Excellent flushing and lubrication properties extend grinding wheels life and enable high surface finish and dimensional accuracy

Low viscosity and excellent wetting properties reduces drag out and results in lower product usage

Good filtering characteristics and high oxidation stability increases product lifetime

Multi-metal machining using our superior additive technology provides opportunity for product consolidation

**TYPICAL PROPERTIES**

	ArChine Alumcut N12
Viscosity: cSt.@40°C	12

**Distributor Wanted**

Shanghai PingYiao Trading CO., Ltd.

Address: Xuhui District, Shanghai Caoxi Yin Hai Building, A1207 Room, No. 250
