

**ArChine Coppcut HP 10****HIGH PERFORMANCE NEAT CUTTING OIL****Description**

ArChine Coppcut HP 10 is especially designed for machining Copper and Copper alloys. This product contains antioxidant and oil additive.

**Application**

ArChine Coppcut HP 10 is recommended for machining of Copper and Copper alloys

ArChine Coppcut HP 10 is designed for general machining, grinding and broaching.

**Advantages**

Low oil mist and foam characteristics, even at high pressures and flow rates, leads to a reduction in oil consumption and increased production rates

Low viscosity and excellent wetting properties reduces drag out and results in lower product usage

Good filtering characteristics and high oxidation stability increases product lifetime

Excellent flushing and lubrication properties extend grinding wheels life and enable high surface finish and dimensional accuracy.

Multi-metal machining using our superior additive technology provides opportunity for product consolidation

**TYPICAL PROPERTIES**

	<b>ArChine Coppcut HP 10</b>
Viscosity: cSt.@40°C	10

**Distributor Wanted**

Shanghai PingYiao Trading CO., Ltd.
