

ArChine Coppcut HP 22**HIGH PERFORMANCE NEAT CUTTING OIL****Description**

ArChine Coppcut HP 22 is especially designed for machining Copper and Copper alloys. This product contains antioxidant and oil additive.

Application

ArChine Coppcut HP 22 is recommended for machining of Copper and Copper alloys

ArChine Coppcut HP 22 is designed for general machining, grinding and broaching

Advantages

Low oil mist and foam characteristics, even at high pressures and flow rates, leads to a reduction in oil consumption and increased production rates

Low viscosity and excellent wetting properties reduces drag out and results in lower product usage

Good filtering characteristics and high oxidation stability increases product lifetime

Excellent flushing and lubrication properties extend grinding wheels life and enable high surface finish and dimensional accuracy.

Multi-metal machining using our superior additive technology provides opportunity for product consolidation

TYPICAL PROPERTIES

Item	Result
Appearance	Yellow transparency liquid
Density (20℃) g/cm ³	0.877
Viscosity 40℃ mm ² /s	11.4
