

**ArChine Grinding N10****HIGH PERFORMANCE NEAT CUTTING OIL****Description**

ArChine Grinding N10 is a ferrous metal and non-ferrous metal, low viscosity neat cutting oil based on mineral oil.

**Application**

ArChine Grinding N10 is designed for high speed, creep feed, gear grinding and drilling/general machining operations of ferrous and non-ferrous metals.

**Advantages**

Low oil mist and foam characteristics, even at high pressures and flow rates, leads to a reduction in oil consumption and increased production rates

Excellent flushing and lubrication properties extend grinding wheels life and enable high surface finish and dimensional accuracy

Low viscosity and excellent wetting properties reduces drag out and results in lower product usage

Good filtering characteristics and high oxidation stability increases product lifetime

High flashpoint, low odour, light colour and low mist qualities improves the work environment

Multi-metal machining using our superior additive technology provides opportunity for product consolidation

**TYPICAL PROPERTIES**

	ArChine Grinding N10
Viscosity: cSt.@40°C	10

**Distributor Wanted**

Shanghai PingYiao Trading CO., Ltd.

Adress: Xuhui District, Shanghai Caoxi Yin Hai Building, A1207 Room, No. 250
