

ArChine Adramic Paste 6040**ArChine High Performance White Paste****Product Description**

ArChine Adramic Paste 6040 high performance paste is an universal paste formulated from synthetic base oil with white solid grease compounds of rather small particle size. It has many applications.

Product Properties

- easily applicable
- well adhesive on any metals
- steam and water resistant
- not dropping
- high thermal stability
- good sealing
- high pressure load
- corrosion protection

Product Application

Used for lubricating all types of high-load sliding surfaces. Used especially for low slide speeds and/or oscillating movements and for screw, plug-in and bayonet connectors made from steel and non-ferrous metals.

Separation of components subject to heat stress, such as internal combustion engines, turbines and motor vehicle brake systems.

Corrosion protection of bolts, pins, studs, flanges, spindles and seatings in refineries, steel and cement works as well as shipping and agricultural engineering.

Packing

600g/tin

150g/tin
