

## BOTE Calsul Complex Grease 2#

### Description :

BOTE Calsul Complex Grease is a premium quality, multipurpose, extreme-pressure calcium sulfonate grease specially designed for use in industrial and automotive equipment operating under wet or corrosive conditions and/or at high temperatures.

### Properties:

highly operational temperature  
water resistant  
perfect corrosion protection  
extreme-pressure and wear-resistant  
peculiar thickening agent pellet for reducing friction of metal surface

### Applications:

Main apply to iron and steel, electric power, paper making, mine, plastic and textile industry. Especially high temperature, the equipment under containing water and heavy load condition.

### Technical Data:

Content	2#
Colour	Homogeneous glossy ointment
Worked penetration, 0.1mm	265~295
Drop point	280
Corrosion(Cu,100°C,24h)	—
Oxidation stability	0.07
Similar viscosity (Pa · S)	≤1000
Evaporation(180°C,1h),%	≤3
