

CP-4218-320

CP-4218 series lubricants are custom-blended, polyolester(POE)synthetic lubricants.

Primary benefits include:

Excellent thermal and oxidative stsbility;

Low volatility for reduced oil consumption;

Superior anti-wear for reduced chain drag;

No carbon residue;

Clean operating environment for frame rails and chains

These high-temperature synthetic lubricants are recommended for use with high-temperature equipment such as oven chains and tenter frame ovens and paint and ceramic curing ovens; they can also be used for bearing applications.

Preliminary product selection guide

Product name	CP-4218-320
Viscosity @40°C cSt ASTM D445	313
Viscosity @100°C cst	21.5
Viscosity @100°F	1688
Viscosity @200°F	108
Viscosity Index ASTM D2270	82

*These values are not intended for use in preparing specifications.
