GUARDIAN FOOD MACHINERY GREASE

MULTI-PURPOSE ALUMINUM COMPLEX FOOD MACHINERY GREASE USDA H-1 APPROVED

PRODUCT DESCRIPTION

GUARDIAN FOOD MACHINERY GREASE is an aluminum-complex-thickened grease, formulated with food grade base oils. Its unique formulation allow it to pass the USDA H-1 standard for incidental food contact. GUARDIAN FOOD MACHINERY GREASE has a higher dropping point than traditional aluminum-complex grease. It is white in appearance and has smooth, buttery consistency.

TYPICAL USE

Used for the lubricating of all types of grease bearings commonly found in canneries, beverage bottling plants, potato chip plants, poultry processing plants, meat processing plants and other food processing plants.

Complies with FOOD and Drug Administration (FDA) Federal Regulation 178.3620 and classified under USDA as a H-1 lubricant where incidental food contact might occur.

FEATURES

Multi-purpose food machinery greases for many applications-reduced inventory.

High temperature protection

Excellent rust protection

Virtually no oil separation

Adhesive tacky grease that stays in place.

Cost effective food grade lubricant

Compatible with aluminum, calcium 12-hydroxy and lithium complexed grease
