

JICHUAN THIN FILM RUST PREVENTIVE

A THIN FILM RUST PREVENTIVE AND PENETRATING OIL

PRODUCT DESCRIPTION:

JICHUAN THIN FILM RUST PREVENTIVE is a solvent and oil blend containing an additive with water displacing properties and fingerprint neutralizing properties. This versatile product can be used as a thin film rust preventive or penetrating oil.

TYPICAL USES:

- Recommended for use on finished steel parts to protect against rusting. Will give 1-3 months sheltered outdoor protection or 5-10 months indoor protection.
- Ideal for applying to finished parts after machining operations with soluble cutting oils to displace water and prevent staining of metal surfaces.
- Commonly used as a penetrating oil to loosen difficult to remove nuts, bolts, and threads.
- Used to free up rusty or dirty parts such as hinges, latches, throttle linkage and other frozen parts.

FEATURES:

- Economical penetrating oil.
- Easy to apply by brush or spray.
- Excellent thin film rust protection.
- Displaces free moisture.
- Neutralizes fingerprints.
