JICHUAN R & O CIRCA OILS

PREMIUM QUALITY INDUSTRIAL CIRCULATING OILS

PRODUCT DESCRIPTION:

JICHUAN R & O CIRCA OIL is manufactured from high quality, solvent-refined paraffin base stocks. These contain a well balanced additive package to provide excellent oxidation resistance, and good protection against rust, corrosion and foam. Oxidation stability at high temperatures reduces the tendency of oil to thicken in service. Excellent demulsibility for quick separation from water.

TYPICAL USES:

- Recommended for air compressors.
- Hydraulic systems operating under 1000 PSI which do not require anti-wear additive.
- Plain and anti-friction bearings, electric motor and generator bearings, vacuum pumps, and speed reducers.
- Centrifugal, turbine and deep well pumps.
- Gear cases requiring AGMA Specification Lubricants 1 thru 6 NON EP.
- General purpose lubrication.
- NOTE: DO NOT USE FOR COMPRESSING OXYGEN, NITROUS OXIDE OR CHLORINE.

FEATURES:

- Excellent oxidation stability for long life at elevated temperatures
- Separates quickly from water
- Non foaming.
- Retains viscosity over wide temperature range.
- Superior rust protection
- Low carbon forming tendencies in air compressors.
- Minimum effect on most seal materials.
