

r.grea AKG 15

Aluminium Complex EP Grease - NLGI-Grade 1-2

Description

r.grea AKG 15 is a high temperature EP grease based on mineral oil.

Application

and **Properties** **r.***grea* **AKG 15** suits for lubrication of roller and friction bearings under high pressure load at high temperatures.

r.*grea* **akg 15** offers good pumpability in central lubricating systems and good seal up properties against water.

Application examples:

For bearings of forging presses, asphalt mix plants, conveying units, foundries and within the range of steel industry (e.g. casting machines and chain conveyors)

Advantages:

- high thermal and mechanical load
- non ageing
- water resistant
- corrosion resistant
- high pressure load capacity
- good adhesiveness

Technical data

	For bearings of forging presses, asphalt mix plants, conveying units, foundries and will range of steel industry (e.g. casting machines and chain conveyors)		
Technical data	Advantages: high thermal and mechanical load non ageing water resistant corrosion resistant high pressure load capacity good adhesiveness		
roomiour data	Thickener		Al-Complex-Soap
	Operating temperature for long-term lubrication		-20 to +150°C
	Short time admissible temperature peak value		+220°C
	Permanent temperatures above 150°C require re-greasing at shorter intervals subject to thermal load		
	Drop point	ASTM D 2265	> 250°C
	Worked penetration after 60 strokes	ASTM D 217	295 to 310 1/10 mm
shangha	Type of base oil		Mineral oil
	Base oil viscosity at 40° C	ASTM D 445	500 mm²/s
	Water resistance	DIN 51 807-01	0 – 90
Mor	SKF Emcor Test	IP 220/85	Corrosion degree 0/0
5	Copper Strip Test	ASTM D 4048	Corrosion degree 1 -150
	Timken Test, well load	ASTM D 2509	40 lbs (178 N)
	Designation	DIN 51 502	KP 1-2 P-20

Subject to modification of the technical data. Please refer to the material safety data sheet for additional information or contact our application engineers.
