

r.rhenus ZW 973

Description	r.rhenus ZW 973 is a clear watery salt solution. It is a hardening agent which may be added to mixing water or to an existing emulsion containing mineral oil or to a synthetical solution. The hardening agent reduces heavy foaming due to very soft mixing water.
Application	<p>The addition of approx. 0,1 % of r.rhenus ZW 973, calculated on the volume of the circulating fluid, increases the hardness by approx. 8°d.</p> <p>The necessary quantity of r.rhenus ZW 973 should be added at places of strong turbulences to achieve a rapid and regular distribution.</p> <p>Subject to modification of the technical data. Please refer to the material safety data sheet for additional information or contact our application engineers.</p>
Edition	10/06
