

UCON Fluids&Lubricants Shanghai Ping Yiao Trading Co.,Ltd

UCON Miscellaneous Fluids

There are a variety of fluids listed below that have outstanding performance for a variety of other uses. Please Contact Us.

Select a product below to download a Technical Data Sheet. The table below lists the typical viscosity† to help you select which product will meet your needs.

Product	Description	Viscosity, SUS 37.8°C (100°F)
UCON Lubricant 1281	Medium viscosity, water soluble polymer used in a lubricity package of synthetic coolants in low-temperature metalworking operations. Used as a foam control agent for aqueous systems above 40°C.	1850 – 2250
UCON Lubricant LB-300-X	Water insoluble based lubricant formulated with an antioxidant for improved high-temperature performance.	292 – 313
UCON Lubricant LB-400-X	Water insoluble based lubricant formulated with an antioxidant for improved high-temperature performance.	387 – 429
UCON Lubricant LB-550-X	Water insoluble based lubricant formulated with an antioxidant for improved high-temperature performance.	530 – 583
UCON Lubricant LB-650-X	Water insoluble based lubricant formulated with an antioxidant for improved high-temperature performance.	631 – 694
UCON Lubricant LB-300-XY26	Water insoluble butanol-propylene oxide polymer based product specially formulated with additives for iron and copper corrosion protection, extreme pressure and high-temperature use.	260 – 330
UCON Lubricant LB-650-XY23	Water insoluble butanol-propylene oxide polymer based product specially formulated with additives for iron and copper corrosion protection and high-temperature use.	630 – 725
UCON Lubricant LB-1800-XY26	Water insoluble butanol-propylene oxide polymer based product specially formulated with additives for iron and copper corrosion protection, extreme pressure and high-temperature use.	1745 – 1925
UCON Lubricant 75-H-110,000-X	A viscous, ethylene oxide/propylene oxide polymer based product specially formulated with additives for high-temperature use.	110,000 – 130,000

UCON Fluids&Lubricants Shanghai Ping Yiao Trading Co.,Ltd

UCON Lubricant 50-HB-280-XY23	Water soluble butanol-ethylene oxide/propylene oxide polymer based product specially formulated with additives for iron and copper corrosion protection and high-temperature use.	260 – 306
UCON Fluid LO-500	An oleyl alcohol-propylene oxide polymer used in personal care products and in oil field applications.	475 – 525
UCON Process Fluid WS	A water soluble polyalkylene glycol based fluid. Applications include electronics, metal, solar, plastics and rubber industries. For use up to temperatures of 392°F.	56
UCON Textile Lubricant LS	A water soluble lubricant developed specifically for use in the misting attachments for projectile circuit lubrication in Sulzer PU, PS and modified TW-11 weaving machines.	400 – 480
