

UCON Fluids&Lubricants Shanghai Ping Yiao Trading Co.,Ltd

UCON Machinery, Gear & Bearing Lubricants

Dow offers two formulated lubricants for gear lubrication: UCONALL™ lubricants and UCON™ food-grade lubricants. UCONALL lubricants are fully formulated, extreme-pressure lubricants for enclosed industrial gears. They are formulated to provide excellent lubrication, thermal and oxidative stability, and extended service life while eliminating many of the problems associated with petroleum gear lubricants. With viscosity indices generally exceeding 170, these lubricants provide excellent viscosity-temperature properties; which eliminates the need for seasonal changeover due to climatic temperature changes. UCONALL lubricants are available in a broad viscosity range for many industrial gear applications, including helical, herringbone, bevel, spiral bevel, spur, and worm gear designs.

Select a product below to download additional product information. The table below lists the typical viscosity† to help you select which product will meet your needs.

Product	Description	Viscosity, cSt, 37.8 °C (100°F)
UCONALL Lubricant 32	UCONALL Lubricants are fully formulated with a high viscosity index that eliminates seasonal oil changeovers. They have an extended service life and reduce energy consumption. For use in compressors, drives, gears, anti-wear hydraulics, mobile equipment and pumps.	39
UCONALL Lubricant 46	UCONALL Lubricants are fully formulated with a high viscosity index that eliminates seasonal oil changeovers. They have an extended service life and reduce energy consumption. For use in compressors, drives, gears, anti-wear hydraulics, mobile equipment and pumps.	52
UCONALL Lubricant 68	UCONALL Lubricants are fully formulated with a high viscosity index that eliminates seasonal oil changeovers. They have an extended service life and reduce energy consumption. For use in compressors, drives, gears, anti-wear hydraulics, mobile equipment and pumps.	66
UCONALL Lubricant 150	UCONALL Lubricants are fully formulated with a high viscosity index that eliminates seasonal oil changeovers. They have an extended service life and reduce energy consumption. For use in compressors, drives, gears, anti-wear hydraulics, mobile equipment and pumps.	143

UCON Fluids&Lubricants Shanghai Ping Yiao Trading Co.,Ltd

UCONALL Lubricant 220	UCONALL Lubricants are fully formulated with a high viscosity index that eliminates seasonal oil changeovers. They have an extended service life and reduce energy consumption. For use in compressors, drives, gears, anti-wear hydraulics, mobile equipment and pumps.	263
UCONALL Lubricant 460	UCONALL Lubricants are fully formulated with a high viscosity index that eliminates seasonal oil changeovers. They have an extended service life and reduce energy consumption. For use in compressors, drives, gears, anti-wear hydraulics, mobile equipment and pumps.	389
